Summary

Full-Stack Developer experienced in scalable web and desktop applications using modern JavaScript and Python stacks. Proficient in React, TypeScript, Node.js, and PostgreSQL, with a strong focus on clean architecture and performance. Skilled in monorepo workflows, Firebase, cloud monitoring, and delivering polished, production-ready solutions end-to-end.

Experiences

05/2025 – Present Washington, US	Software Engineer, Numeo.ai 🔗 I work as a full-stack software engineer, contributing to both frontend and backend within a Rush-based monorepo structure. I focus on writing clean, maintainable code following solid design principles. My work includes building Chrome extensions, deploying applications with Firebase, and using Google Cloud Console for monitoring and performance optimization. This end-to-end involvement enables me to deliver stable, scalable solutions and improve development workflows across an AI-driven logistics platform.
11/2024 – 05/2025 Andijan, Uzbekistan	Desktop Engineer, KSB-SOFT 🔗 A desktop application is being developed using Electron.js, which will contain many ERP system functions. Developed a robust ERP system consolidating data from three 1C ecosystems. Enabled offline functionality with local database synchronization to a central system. Used React, Electron JS, and Tailwind CSS for a seamless and efficient user interface. Implemented real-time updates and streamlined workflows for enhanced productivity. Developed a robust ERP system consolidating data from three 1C ecosystems.
03/2024 – 08/2024 Tashkent	Front-End Developer and CTO, Educare Online Learning Platform - Collaborated closely with designers, and other developers in order to complete tasks efficiently and effectively. - Built responsive web pages optimized for different devices. Implemented best practices for SEO optimization of website pages and contents. - Make Main Website and include 3 types of dashboards which can be a CRM system. - Assisted in debugging application issues related to the back-end systems. - Implemented RESTful web services for various client-side applications. - Deployed whole application to the Plesk Server and opened Postgres database for backend. - Website Link: https://edu-front-lovat.vercel.app/
01/2023 – 08/2024 Tashkent	Python Full Stack Developer, Start Up Project - Developed a Telegram bot using Python and the Aiogram framework, integrated with a PostgreSQL database. - Learned Python and Aiogram independently through online resources, starting from scratch. - Implemented clean code principles and best practices, resulting in maintainable and efficient code. - Continuously improved and optimized bot functionalities, enhancing user experience and performance.

02/2023 – 02/2024 Tashkent	Full Stack Web Developer and Team Lead, <i>Startup Project</i> - The website of the 182nd school in Tashkent was successfully built and handed over to the school. - Managed both back-end and front-end aspects of development process. Utilized front-end frameworks, such as React, to develop dynamic and interactive web applications. Built and integrated RESTful APIs for internal and external use. - Deployed frontend and backend project into a Plesk server. - Website Link: 182maktab.uz
09/2022 – 12/2022 Tashkent	Front-End Developer, <i>Start Up Company</i> - Created custom responsive designs that optimized the website layout for various devices. Integrated front end code with server side code to implement dynamic pages. - Collaborated with back-end developers to integrate user interface elements into applications. Implemented standards, methods, and tools to complete project work and mitigate constraints. - This project was an online store project for selling construction products in Uzbekistan.
11/2021 – 02/2022 Tashkent	FrontEnd Developer, <i>Dynamic Soft</i>  - Developed and maintained user-friendly webpages using React (Next.js), JavaScript and Bootstrap. - Collaborated with teammates to improve processes and produce better tools. - Collaborated with back-end developers to integrate user interface elements into applications.

Education

2023 – 2024	182 state school
2017 – 2023	Mukhammad Al-Khorazmi Tashkent

Skills

Javascript — Proficient	Python — Competent
React.js — Competent	Typescript — Competent
TailwindCss — Expert	Bootstrap — Expert
Html5 — Expert	CSS — Expert
Node.js — Proficient	Express.js & Nest.js — Competent
RestAPI — Proficient	PostgreSQL — Proficient
Devops — Competent	Azure — Amateur
AWS — Amateur	GIT — Proficient
MongoDB — Competent	Firebase (Hosting, Functions, CI/CD) — Amateur
Google Cloud Console — Competent	Monorepo (Rush.js) — Proficient
Chrome Extension Development — Competent	Clean Code Principles — Proficient
